

RAPSKEY

Unlocking Regulatory Excellence

Unlock Regulatory Excellence with **RAPSKEY**

Empower your Regulatory Affairs with **RAPSKEY**, an innovative RIM system designed to boost efficiency and team collaboration.

Developed in Algeria by an experienced pharmacist and a team of skilled developers and designers, **RAPSKEY** provides an affordable and accessible solution tailored to the unique needs of the region.

- **Struggling to meet deadlines and reduce submission timelines?**

RAPSKEY streamlines workflows and improves efficiency.

- **Tired of managing data across multiple spreadsheets and systems?**

Centralize all your RA data in one source of truth. Eliminate data silos and improve data accuracy.

SYSTEM MODULES

Products Module: Digitally centralize all product details for easy access and streamlined compliance.

Projects Module: Streamline submissions, renewals, and variations with built-in templates.

Documents Module: Manage eCTD submissions and adapt seamlessly to evolving e-submission requirements from the Health Authorities.

Insights & Regulatory Intelligence: Stay updated with the latest guidelines and requirements from Health Authorities.

Analytics Module: Generate advanced reports and queries to track performance, compliance, and deadlines.

Team Space & Gamification: Foster collaboration with innovative gamification features to motivate your team and achieve regulatory milestones more effectively.

Why Choose RAPSKEY?

Designed for the region: Tailored to local regulatory requirements.

Intuitive and user-friendly: Easy to learn and navigate with minimal training.

Affordable and accessible: Competitive pricing and dedicated local support.

Built for your market: Addressing the specific needs of the regional pharmaceutical industry.
